The papers now and then give the hospitals "Jessie" for their treatment of soldiers—sick and wounded—both as regards food and attention, all or most of which complaints are made through ladies. Now, in the name of humanity, let them remember that many convalescents are troubled by a ravenous appetite, which, indulged to its fullest extent, might prove fatal. Ladies (?) come at all hours of the day with baskets thrice daily, and provisions given

the meals might be superfluous to some.

Suppose, if they bring food to the hospitals, as their kind hearts prompt them to do, they give it to the nurses, who know what diet is proper for each patient under their charge, as also that some must not have all they crave. Another thing which might not be very injurious, would be for ladies to avoid the vicinity of the beds of very ill or dying men, to hold conversations with handsome convalescents, even though the quietest part of the house may be found there. This is especially desirable after night. Above all, let them avoid taking the treatment out of the hands of competent surgeons and physicians; this was bearable so long as they only

Weed is not the man to spend his time with a scallowag like Bennett without a purpose, and our Washington correspondent, in a private note, gives us the facts in the case, which are very curious. After Bull Run, it will be remembered, the Government was compelled, by a sense of self-preservation, to practically suspend the Journal of Commerce, Daily News, Day Book, and other disloyal papers. The Herald all this time was perfectly loyal; but about the time Mr. Chase was negotiating his first loan, it began to show its secret venom as to represent the whole State, the "Configure on the coast. Disastious Fire at Richmond.

TOTAL DESTRUCTION OF THE RICHMOND THEA-

[From the Richmond Dispatch, Jan. 3.] Yesterday morning, at a quarter before four o'clock, some person passing the Richmond theater, on the corner of Seventh and Broad streets, saw flames issuing from that building and gave the alarm of fire. In a very short time the whole structure was enveloped in a sheet of flame, and when the engines arrived upon the ground it was found impossible to do much alse than endeavor to save the adicining property. The found impossible to do much else than en-deavor to save the adjoining property. The fire speedily communicated to the block of buildings on the east, the first of which, occupied by David A. Brown, saddler and harness maker, and by Mrs. Jackson, mantua maker, was entirely destroyed; W. H. Davidson's Hotel, the next tenement, mantua maker, was entirely destroyed; W.
H. Davidson's Hotel, the next tenement,
was partially burnt, and the clothing store
of N. W. Nelson, adjoining, somewhat
damaged. The roof of the brick building
on Grace street, below Seventh, owned by
Dr. C. Thomas, occupied by Thomas Lawson and John M. Lindsey, took fire, and the
furniture was moved out. No great damage was done here, except by water and
breakage. Mr. Lawson, who was sick in
his house, was removed to the residence of
Dr. Bolton, in the neighborhood. The rear
wall of the theater fell and crushed two
small frame buildings, owned by Green &
Allen, one of which was occupied by Wm.

This property was not very valuable.
Mr. J. H. Hewitt, manager, and Mr. R.

Mrs. Elizabeth McGill, the last owner, purchased the theater in May, 1855, for \$25,000, when property, particularly of that description, would not command its value at public sale. Since that period many costly improvements have been made upon it, and we suppose that \$50,000 would not more than make good her loss. Her insurance is \$25,000, divided among five offices as follows: Albemarle, \$5,000 Jefoffices, as follows: Albemarle, \$5,000; Jefferson, \$5,000; Lynchburg Hose Company, \$5,000; Merchants', \$4,000; Richmond Fire

Association, \$6,000.

The theater was built in 1818 or 1819, by The theater was built in 1818 or 1819, by Major Christopher Tomkins, for a joint steck company, under whose control it remained until 1856, when it was purchased by Colonel S. S. Myers. It was known, until recently, as the "Marshal theater." The season lately inaugurated bid fair to be the most profitable in its history, but its career has been suddenly brought to a disastrous termination. We learn, however, that it is the purpose of the owner to rebuild as soon as circumstances wilf allow.

The building occupied by Mr. Brown, on the east, was owned by Mrs. James Rawlings. The loss is about \$5,000; probably insured. Mr. Brown, we are informed, saved the larger portion of his stock. Mrs. Jackson's loss may be \$300.

Letter from Edmonson County EREL CAMP AT CORNELIAN SPRINGS-STATE

BROWNSVILLE, KY., January 6, 1862. Editors Democrat - Gentlemen: Think. ing that a few items so near the Southern miles below the city, it was stopped and Mr. Confed might prove interesting to your numerous readers, I have come to the conclusion to give you a "pen and ink sketch" of the naked facts that have occurred in the last few days, and what is likely to occur in future. There are some fifteen hunsignars, and asked for the lighted candle to dred rebel soldiers encamped about seven miles south of this place, at the Cornelian springs, and are committing all kinds of depredations on the loyal citizens south of Green river. They have gone so far as to arrest Union men and take them to Bewlinggreen, and make them work on the fortifications, which are represented by every one that goes there as being very formidable. Last Saturday, about four himdred of them came to this place and attempted to cross the river, but were foiled in the attempt, by a slight obstacle on the other side in the shape of Captain Baker and his gallant boys of the Home Guard. After the rebels had two men wounded, they retreated to the music from a diseased kettle drum. Their intention was to have crossed the Their intention was to have crossed the river and have gone to an oil spring (owned by Mr. J. D. Otter, of the firm of Otter & Allen, of your city), and establish an encampment there to obtain the oil, which runs from seven to ten gallons per day. The above article they are really in need of; there is no telling at what time they will attack the Home Guards again.

Should they bring artillery along with them Should they bring artillery along with Should they bring artillery along with them they may succeed in crossing. Would it not be well for Gen. Buell to send a regiment here? Too much praise could not be bestowed upon Captain Baker and his men. They have felled the trees for thirty miles in each direction from this place at the crossings. There has been a great deal of rain in this vicinity of late—the river is out of banks. This will prove a serious obstale to the rebels as there are no hoats.

ligious denominations, including the Uongregational Union, the Baptist Upion, and the Baptist Board, had an interview, on the 27th of December, with Earl Russell, on the subject of the threatened war with America.

The English papers continue to teem with articles on the American question. They are useful confined to append to the standard of the Officer's and crew on board.

**The Evansville Journal, of the 5th, had articles on the American question. They are mostly confined to speculations as to the nearest precedent yet quoted to the Trent case. The London Times calls attention to the affair of the Dutch brig

Hendrick and Alida, captured by the British in 1777, while she had on board five officers in 1777, while she had on board five officers for the American army. The ship and officers were released by the British Admirality, the Judge ruling that although the officers frankly admitted their positions, yet as they were passengers en board a neutral ship which sailed from a neutral port for another port, the proximate distinction of the passengers was entitled to be regarded as an innocent destination, and they were consequently set at liberty.

onsequently set at liberty.

The Times claims that this case plainly establishes the principle that between one neutral port and another all persons and things whatever may be legally carried. The London Daily News, in a letter from Hamburg, gives an account of a meeting of English merchants there, at which Mr. Ward, British Charge d' Affaires, read a paper purporting to be Earl Russell's note to Lord Lyons in regard to the Trent affair. This note is worded with great moderation. It describes the seizure of Mason and Slidell in the terms of Capt. Williams' report to the Admirality. It makes no mention of the opinion of the law officers of the Crown, of which so much has been said in the papers, but simply and explicitly characterizes the capture of the Commissioners as an infrac-tion of the law of nations and an insult to

the British flag.

It declares that the Cabinet at St. James, nsidering the cordial and friendly charac ter of the relations existing between Eng-land and the United States, cannot doubt for an instant that the Captain of the San Jacinte must have acted without authority from his Government. It then adds that the British Government feels confident that the Government of the United States will not hesitate to take the only steps possible

At this the cavalry under Colonel Croghan were ordered back to seeu the country and ascertain the enemy's distance. When they had gone back two miles they met the enemy's pickets advancing, when Colonel Croghan ordered his men all to dismount, though he did not, when the pickets of the enemy fired on him, and he fell mortally wounded. THE MILITARY DEPARTMENT OF NEW ENGLAND. The creation of a military department, some time since, to consist of the New England States, and the appointment of General Butler to command it, made quite a sensation in some of those States, and sensation in some of those States, and especially in Massachusetts, and more especially in Boston—"the hub of the universe." When this new department was created, it was done for a pairiotic purpose, the details of which I am not at liberty to mention. They are not even known to Governor Andrew yet, who would do very well as the way Governor of Massachusetts if it was war Governor of Massachusetts, if it was not for his private secretary, the imitative Browne, who rejoices in the cognomen of Lieutenant Colonel, but who, unfortunately for the country, never yet handled any other weapon than a brick, during the so-called

"Burns Riot." Gen. Butler took charge of the department, and had seen too much real service in the enemy's country, and was too much of a gentleman to allow himself to be impolitely interfered with by a subordinate officer interfered with by a subordinate officer even, much less by Governor Andrew's messenger. The result was that General Butler was resisted in his attempt to raise the men for his expedition. Messenger Browne, representing Gov. Andrew, refused to commission the officers elected by Gen. Butler's new regiments. Governor Andrew sustained his messenger and refused also. Butler appealed to the President, and the latter assured General Butler that he should be sustained. regretting at the same time latter assured General Butler that he should be sustained, regretting at the same time that there should be any conflict between the Federal Government and the Commonwealth of Massachusetts. General Butler, having his orders from the President of the United States, did not hesitate to proceed with the organization of his expedition, leaving Governor Andrew to fight out the matter with the Federal Government. Today an order has been issued for all the regiments now in New England, and that have not yet reported for duty, to do so to General Butler, at Boston, who is required to order their inspection forthwith. This will produce a new complication between

MEDICAL

Scrofula, or King's Evil Scrofula, or king's Evul.

Is a constitutional disease, a corruption

I of the blood, by which this field becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its stateks, nor is there one which it may not destroy. The scrofulous taint if variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and lithy habits, the depressing vices, a.d., above all, by the venereal infection. Whatever be its origin, it is foreditary in the constitution, descending "from parents to children unto the third and fourth generation." Indeed, it seems to be the rod of Him who says. "I will visit the injustices of the father upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This fool corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disordes which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from, or are aggravated by the same cause.

One quarter of all our peeple are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S COMPOUND Tens invaluable medicine is unfailing in the cure of it those painful and dangerous diseases incident to the

The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure not only of Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHOMY'S FIRE, ROSE OF REYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAND SANDERS, ST. ANTHOMY'S FIRE, ROSE OF REYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAND SANDERS, ST. ANTHOMY'S FIRE AND SALT RHEUM, SCALD HEAD, RING-WORW, RHEUMATISM, SYPHILITIO and MERCURILAL DISEASES, DROPPY, DYSPEPSIA, DEBILITY and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belle in "impurity of the blood" is founded in truth, for scroful is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is, to purify and regenerate this vital ituid, without which, seund health is impossible in contaminated constitutions.

Ayer's Ague Cure FOR THE SPEEDY CURE OF INTERMITTENT FEVER OR FEVER AND AGUE, REMITTENT FEVER, CHILL FEVER, DUMB AGUE, PERIODICAL HEADACHE OR BILIOUS HEADACHE, AND BILIOUS FEVERS-INDEED. FOR THE WHOLE CLASS OF DISEASES ORIGI-NATING IN BILIARY DERANGEMENT, CAUSED BY THE MALARIA OF MIASMATIC COUNTRIES.

WE ARE ENABLED HERE TO OFFER THE COMmunity a remedy which, while it cures the above complaints with certainty, is still perfectly harmless to any quantity. Such a remedy is invainable in districts where these afficting disorders prevail. This "Cure" expels the missmatic poisson of FEVER and AGUE from the system, and prevents the development of the direase, if taken on the first approach of its premonitory symptoms. It is not only the best remedy everyet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybods; and in bilious districts, where Fever and Ague prevails, everybody should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of everybods; and in bilious districts, where Fever and Ague prevails, everybody should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain sure of Intermittents is that it contains no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disorders arise from its irritation, among which are—Neuralgia, Rheumatism, Gout, Headache, Blindness, Panini a the Bowels, Colic, Parajysis, and Derangement of the Stomach, All of which, when originating in this cause, put on the intermittent type, or become periodical. This "Ourse" expels the poison from the blood, and, consequently, cures them all atike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the mainfous districts. If takea occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease.
